Professional Summary

Full-stack software developer experienced in building end-to-end web applications using

Python, Django, JavaScript, and SQL.

Strong focus on backend logic, REST API design, and data integrity, combined with frontend

integration and client-server communication.

Hands-on experience implementing authentication, business rules, and

database-backed workflows across full web systems.

Technical Skills

Languages: Python, JavaScript, C, SQL

Frontend: HTML5, CSS3, JavaScript (ES6+), React (basic), Single-Page Applications

Backend: Django, Django REST Framework, Flask, REST APIs, Authentication & Authorization

Databases: PostgreSQL, SQLite

Computer Science: Object-Oriented Design, Data Structures, Algorithms, Operating Systems

Tools: Git, Linux, Docker (basic), AWS (introductory), VS Code

Architecture: MVC, Client-Server Communication

Projects (Selected)

Transport Service – Capstone Project (CS50W)

<https://youtu.be/YkaA7v1UoW0?si=UnayeosQGLwcRI3f>

- Developed a full-stack volunteer transport coordination platform using Django, REST APIs, and JavaScript.
- Implemented authentication, role-based workflows, scheduling logic, and database-backed validation.

Finance – Trading Platform (CS50x)

- Built a web-based stock trading simulation using Python, Flask, and SQL.
- Implemented authentication, transactional buy/sell logic, and server-side validation.

Network – Social Web Application (CS50W) https://youtu.be/-7Xk_SNUO0w?si=LbcB5ceKLL1wHAad

- Built a social networking platform with posts, follows, and likes.
- Implemented REST APIs, pagination, and asynchronous JavaScript updates.

Additional CS50x projects include C, SQL-driven investigations, ranked-choice voting algorithms, DNA analysis, and image processing (see portfolio).

Education

Harvard University (via edX)

Professional Certificate in Computer Science for Web Programming

<https://credentials.edx.org/credentials/653fd0e493354ed6a6d177b06383b6c5/>

Includes:

- [CS50x](#) – **Introduction to Computer Science:** CS fundamentals, algorithms, data structures, and systems basics (C, Python)
- [CS50W](#) – **Web Programming with Python and JavaScript:** Full-stack web development using Django, REST APIs, SQL, HTML, CSS, and JavaScript
